

Water Pumping Station

Dennis Water District, Massachusetts

Horsley Witten Group, Inc. (HW) prepared the engineering design, permitted with Massachusetts Department of Environmental Protection (DEP), and observed the construction of Water Pumping Station No. 20 for the Dennis Water District. The pumping station is 11 feet by 10 feet and includes one 700 gallons per minute turbine pump with variable frequency drive, chlorine and sodium hexametaphosphate feed systems. The construction cost of this project was \$197,200.
