

Section 3: Enforcement

1) Better Organization

- The section that describes the procedure for making amendments to the Zoning Bylaw was moved to the proposed Section 1, as this material is better suited to a “General Provisions” discussion.
- As a whole, this section addresses many of the issues currently kept in Section 9: Administration. As the foundation for many of the bylaw policies and procedures, this section is better placed in the early sections of the document.

2) Clerical Amendments

- As noted in the Section 2 summary, the Rate of Multi-Family provisions and Growth Management bylaws are no longer applicable to the Town and were therefore removed. Subdivision Phasing has remained in the proposed draft.
