

Comprehensive Community Plan Update

Town of South Kingstown, Rhode Island

The Town of South Kingstown began the update to their Comprehensive Plan in 2010 and asked Horsley Witten Group, Inc. (HW) to lead the process over the course of a year-long effort. The update to the plan will address all of the elements required by state law, and will also address the Town's University of Rhode Island element that they have chosen to add. In consultation with Statewide Planning, HW will address all data needs and emerging issues in the state including climate change and sea-level rise. Ongoing services provided by HW in this project include:

- Facilitation of two public forums;
- Interviews with local officials and key stakeholders;
- Regular work sessions with the Planning Board;
- Development of a project website;
- Implementation of a survey in electronic and hardcopy format;
- Complete draft and final versions of the Comprehensive Plan.
- Support for adoption at both the local and state level.
